Physical Sciences
Research Council

The ACIT Hub

- A **UKRI DRI Training Hub** for Research Technology Professionals, backed by **£3.9m** of funding
- Builds the profession of the **Research Infrastructure Engineer (RIE)** the specialists who keep digital research infrastructure running
- Delivers **industry-trusted training**, promotes best practice and raises the visibility of RIE careers
- Responds to **rising AI demands** on research facilities and the teams behind them

Hub partner institutions

Industry partners

Hewlett Packard
Enterprise

The High Performance Computing
Special Interest Group for UK Academia

Mentoring Scheme

- **Join the next cohort Sep '26 - May '27**
- **Why take part?**
 - Learn from others across HPC & research computing
 - Build connections beyond your institution
 - Grow your career, or support someone else
- **For both mentors and mentees**
 - Mentees looking for guidance & career development
 - Mentors supporting others & gaining leadership skills
- **What to expect**
 - Flexible 1:1 mentoring (online & in-person)
 - Structured support throughout the programme
 - Funding available for travel to meet-up

"I am going to keep an informal relationship with my mentor even after completion of this program."

Applications open July 2026

"Having an external person with experience of similar problems but not rooted in my organisation gave a fresh perspective and confirmation when a problem has a similar solution in both of our organisations."

Upcoming Events

14 JUL

WEBINAR

Agentic Ops

Richard Gilham,
Isambard

WEBINAR

Hackathon Prep

15 SEP

HACKATHON

**Same event,
two places**

Surrey + Sheffield

16 SEP

CO-DESIGN DAY

**University of
Sheffield**

3 more in November.
Edinburgh, Oxford &
Bristol

7 OCT

WORKSHOP

Agile for RIE's

University of Surrey

Join us, get involved

Register and find more at the ACIT Hub website, or join the mailing list to hear about future events.

Discussion Topics

- 1. Build Systems vs AI Toolchains
- 2. Python Environments in HPC
- 3. Containers vs Native HPC Software
- 4. Ownership, Skills & Responsibility
- 5. Portability, Performance & Standardisation

The Rule of 2 Feet = Optimise Your Time

- **Don't hang about:** If you've nothing left to gain or contribute to the topic, move on straight away.
- **No hard feelings:** Walking away isn't rude here, it's just efficient.
- **Cross-pollinate:** Use your feet to ship good ideas to other tables.

Discussion Topics

- 1. Fairness vs Efficiency
- 2. User Input, Automation & Trust
- 3. Workflows vs Jobs
- 4. Resource Modelling & Constraints
- 5. What Should Come Next?

The Rule of 2 Feet = Optimise Your Time

- **Don't hang about:** If you've nothing left to gain or contribute to the topic, move on straight away.
- **No hard feelings:** Walking away isn't rude here, it's just efficient.
- **Cross-pollinate:** Use your feet to ship good ideas to other tables.
